Forecast For Wales
Issued by Met Office Exeter
at 0400 on Monday 19 Apr 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Another fine and dry day, with cloud building later.

Today:
After a cold start, with some patchy frost in places, it will be another fine and dry day with plenty of sunny spells. Patchy cloud will build over western areas through the day, with eastern staying largely clear. Feeling warm. Maximum temperature 16 deg C (61 deg F).

Tonight:
Staying dry overnight, with plenty of clear skies. Another cold night with a frost possible, although less widespread than recently. Minimum temperature 0 deg C (32 deg F).

Tuesday:
A cold start with clear skies in the southeast, then largely dry with sunny spells and thickening cloud throughout the day. Into the afternoon, the odd isolated shower is possible. Maximum temperature 16 deg C (61 deg F).

Outlook for Wednesday to Friday:
Largely cloudy on Wednesday, with some scattered showers. Skies clear afterwards, for fine and dry conditions with patchy fair-weather cloud into Thursday and Friday. Overnight frosts remain likely.
